

3SPGroup Will Attend OFC/NFOEC 2012

March 6-8, 2012
Los Angeles Convention Center
Booth 1852

Nozay, March 6, 2012 – 3SPGroup will attend OFC/NFOEC which will be held at Los Angeles Convention Center, from March 6-8.

The Group will showcase different products such as: Ultra High Power 980 Pumps, EML Lasers Low Power 2+1, Couplers, High Power Fiber Lasers and Amplifiers.

- 3SPGroup will introduce its new highly efficient 14xx Raman Pump and up to 100km transmission EML TOSA.
- TOSA Module performances research results will be presented during 2 technical presentations.

Conference - Thursday 8th, 4:00 PM, Room 411

“Extended Temperature (-40/+90 °C) Ultra Low Power Consumption with High Average Output Power (>+3 dBm) 1.55µm TOSA Module for up to 11.3 Gb/s 100 km Dispersion Compensation Free Transmission Metro Applications”

Conference - Thursday 8th, 4:15 PM, Room 409

“End-to-End Integrated Multiservice Packet Network” (European ICT ALPHA project)

The Optical Fiber Communication Conference & Exposition and the National Fiber Optic Engineers Conference (OFC/NFOEC) is the premier international event for both the science and business of optical communications, with a comprehensive technical program and the largest all-optical business exhibition.

About 3SPGroup

3SPGroup is a leading provider of innovative optical products and solutions for Telecom, Laser, Sensor, Industrial, and Defence markets.

The Group designs, manufactures, and markets high reliability active & passive optical components and modules for the telecom, industrial, security and defence, medical and R&D applications. It develops ultra-reliable fiber-optic systems including high-power fused components, OFS (Optical Fiber Sensors), fiber laser components and a complete range of 1.0 μm , 1.5 μm and 2.0 μm fiber lasers and amplifiers.

Through its Avensys Solutions division, it also provides instrumentation and integrated solutions for process and environmental monitoring systems.
