

**Press Release**

## **3S PHOTONICS will attend ECOC 2009**

September 21-23, 2009

**European Conference and Exhibition on Optical Communication**  
ACV- Austria Center Vienna  
**- Booth 117 -**

**Nozay, September 9<sup>th</sup>, 2009** - 3S PHOTONICS, world-leading French manufacturer of optical and optoelectronic components for telecommunications networks, will attend ECOC 2009, which will be held at ACV-Austria Center Vienna in Vienna from September 21-23.

Largest European event on optical communications, 300 exhibitors and more than 5000 visitors are expected this year.

3S PHOTONICS will unveil - booth n°117-, its new generation of 980nm pump modules. It will showcase its analog laser module for OFDM applications whose performances will be presented by Orange Labs, during a technical conference (September the 23<sup>rd</sup>, 12h15, Room G, Group : 7.5: High Bit Rate PON).

### **About 3S PHOTONICS**

3S PHOTONICS – formerly Alcatel Optronics – is the leading world manufacturer of laser chips, optical discrete modules and components for telecommunication networks. It designs, develops, manufactures and commercializes active components powered by in-house III-V optoelectronic chips based on both Gallium Arsenide (GaAs) and Indium Phosphide (InP) technologies and passive components using Fiber Bragg Gratings (FBG).

The 3S PHOTONICS renowned optoelectronic chip manufacturing plant of Nozay is a technological feat that is unique in the world as it brings together GaAs and InP technologies under the same roof.

Its product portfolio includes five product lines:

- \* Transmission Laser and Detector Modules
- \* Pump Laser Modules for terrestrial and submarine applications
- \* Chromatic Dispersion Compensation Modules
- \* Filters, gain equalizers and pump stabilizers based on Fiber Bragg Gratings for terrestrial and submarine applications
- \* Chips (lasers and detectors) and Front End Services

With over 14 years of experience, the company takes advantage of its expertise and know-how to also address new markets, providing smart solutions for defense, industrial and medical applications.

Based in Nozay (Essonne near Paris), 3S PHOTONICS is run by Alexandre Krivine and Didier Sauvage. The company employs over 160 people, of which 130 are experts in the photonics industry.
