

MULTIMODE COMPONENTS

19 x 1 HIGH POWER Pump Combiners

ITF Labs' Multimode Pump Combiners feature exceptional optical characteristics. These devices can be used to combine the power from several multimode laser diodes, delivering the combined power for applications in industrial, military, medical and telecommunications markets.

ITF Labs' Multimode Combiners offer efficient power transfer for high power applications like fiber lasers and fiber amplifiers, with a maximum conservation of brightness. The Multimode Combiners can be designed to meet a wide range of power handling configurations, number of input fibers and adaptation to different fiber types.

For more information on this or other products and their availability, please contact our customer service at **514.748.4848** (Int'l) / **1.888.922.1044** (Canada & USA only) or via e-mail at info@itflabs.com

KEY FEATURES

- High Power Transfer Efficiency
- Wavelength Insensitive
- Custom Configurations Available
- RoHS Compliant

MULTIMODE COMPONENTS

19 x 1 HIGH POWER Pump Combiners

SPECIFICATIONS

STANDARD CONFIGURATIONS

Product Code	MMC19012021	MMC19011071
Optical Specifications		
Pump Operating Wavelength	800-1000 nm	
Number of Multimode Inputs	19	
Number of Signal Ports	0	
Number of DCF Ports	1	
Pump Input Fiber Core/clad diameter NA	105/125 μ m 0.22	105/125 μ m 0.15
Output Fiber Core/clad diameter NA	20/400 μ m 0.06/0.46	20/200 μ m 0.11/0.46
Power per Multimode Input Total Power Input	40 W 760 W	
Multimode Power Transfer Average Efficiency/Insertion Loss	> 93 % / < 0.3 dB	
Average Optical Return Loss	45 dB	
Mechanical Specifications		
Dimensions	60 x 12 x 6.5 mm	
Fiber Pigtail Length Input/Output ¹	A= 1000 mm B= 2000 mm C= 3000 mm	

¹Pricing is dependant on fiber pigtail length.

ORDERING INFORMATION

For standard products, please use product codes specified above.
ITF Labs can also develop custom multimode power combiners to meet
a wide range of technical requirements.
